A-FACT is back!

The A-FACT Committee (AAUP Faculty Advocacy Concerns Team) is ready to inform the faculty about the 2008 negotiations. During negotiation, the administration may behave in ways that are inimical to faculty interests; if so, the A-FACT Committee will make sure that faculty are aware and understand what is occurring.

The WMU-AAUP desires a negotiation process that is less contentious than 2005 and is aware that faculty are hopeful that a new University President and administrative team will bring to the negotiation table proposals that honor and reward the work of teachers and researchers. We trust that the administration shares our belief in the integrity of the existing contract and that the negotiations will be brief and successful.
